Currently pursuing a Professional Bachelor's degree in Frontend Development, building a strong foundation in React, HTML, CSS, and JavaScript. I am eager to apply my skills from my coursework and projects to contribute to a professional development team while continuously learning and growing into a full-stack role.

Education:

Professional Bachelor's degree in Frontend Development, Jensen Yrkeshögskola   (Aug 2024 - May 2026)

- **Relevant skills & coursework:** Gained hands-on experience in HTML, CSS, JavaScript, React, UX/UI, and Version Control (Git, Github) through coursework and practical projects.
- **Project:**
    - Cinema Booking System: Built a full-stack application as a team of 4 students using React, Restful API, Node.js, Express.js, and SQL for database management.
        - **Built a dynamic, single-page application (SPA)** using React to provide users with a seamless booking experience, including movie browsing, filtering, and detailed views.
        - **Implemented a responsive and interactive visual seat selection interface**, allowing users to intuitively select seats and view real-time availability.
        - **Developed user authentication and profile management features**, enabling users to register, log in, manage their bookings, and update personal information.
    - Forum App: A practical small project using React for frontend and Node and Express for backend as well as SQL for database management.
        - **Developed a dynamic user interface for a forum application using React,** enabling users to view, create, edit, and delete discussion threads and replies.
        - **Engineered intuitive filtering and sorting functionalities**, allowing users to easily navigate and find relevant content based on categories, keywords, and latest activity.
    - Racha Beauty & Wellness: Developed a client-facing informational website using React, TailwindCSS, Node.js, and Express.js for the backend.
        - **Designed and developed a multi-page**, client-facing informational website using React and TailwindCSS, including sections for services, galleries, and contact information.
        - **Implemented a backend-integrated contact form** to facilitate direct client communication and inquiries.
        - **Collaborated with a real client to bring their brand vision to life**, creating a custom user interface with a calm and elegant aesthetic and tailoring all content to a Danish-only audience.

MSc in Business and Management - Entrepreneurship, Uppsala University   (Aug 2022 - June 2023)

- **Relevant coursework:** Developing ideas and opportunities, Strategic corporate entrepreneurship, Managing the growing firm, Internationalizing the firm, and Design Thinking.
- **Thesis:** A Social Constructivist Perspective on Entrepreneurial Learning in Business Incubators: A Case Study from Sweden (Supervisor: Ingela Sölvell).

Curriculum Vitae

BA in Game Design and Project Management, Uppsala University   (Aug 2019 - June 2022)
- **Relevant coursework:** Projects and leadership, Project management with Agile methods, Product development, Game Design, Game Production, Game Development and Sustainable development.
- **Game Project:** [Fly Away](#), [Armored Division](#)
- **Thesis:** [Thrill vs. Cybersickness: A study on camera settings' impact on immersion and cybersickness in VR Racing Games](#) (Supervisor: *Masaki Hayashi*).

Work Experience:

(Volunteer) Head of Millennial Consulting, Copenhagen, Denmark   (Sep 2023 - May 2025)
- Managed and monitored two-month consulting projects from start to finish, ensuring timely delivery and maintaining a high standard of client engagement and satisfaction.
- Facilitated project kick-offs, planning workshops, and mentor-led sessions to support student development; created an inclusive environment focused on learning, initiative, and real-world problem-solving.
- Managed operations and internal communications; implemented a hybrid project management approach (structured + agile) to improve efficiency and team coordination.
- Spearheaded improvements in workflows, documentation, and internal knowledge-sharing; developed sustainability strategies to ensure the continued success of future cycles.

Additional Information:

Languages: Thai (Native), English (Proficient), Swedish (Proficient) and Danish (Beginner).
